ENGINEERING DEPARTMENT

WATER SUPPLY DIVISION, BANGALORE.

Notification dated....June 1936.

To

The Several Engineering Firms and Contractors.

CONVERTING THE OPEN SETTLING TANK OF 3½ MILLION GALLONS CAPACITY AT COMBINED JEWELL FILTERS, BANGALORE, INTO A COVERED PURE WATER RESERVOIR, BY ROOFING AND PROVIDING PILLARS, ETC.

SIRS,

Please furnish me with your most economical quotations including plans, estimates and calculations of design, etc., complete, for providing and erecting suitable Pillars, Roofing, Ventilators, etc., complete, to the open settling tank at Combined Jewell Filters, whose approximate dimensions are as follows :—

A square tank with trapezoidal sloping sides 183′×183′ at Base and 223′×223′ at Top and about 13′ to 14 feet high to the top.

The pillars have to be so spanned that they can be founded on the bottom plastered floor of the tank without cutting it open. The load may be spread out on the floor so as not to cause any puncture or crack in the floor.

The quotation has to include the repairs to the bottom and sides of the tank at some of the places where it is very slightly leaking so that the Reservoir can be guaranteed to be water tight at the end of all the construction and before it is permanetly taken to service.

The finished appearance and elevation, etc., of this 2nd Reservoir are to be exactly like the adjacent Eastern Reservoir which was roofed in 1933.

The whole work has to be completed within six months at the latest after the placing of orders.

The quotation has to include the cost of erection, etc., complete, all the accessories needed having to be supplied by the contractor at his own cost.

The place may be inspected on any date between 8 and 11 A.M. in the mornings. The tank is situated opposite and to the south of the Indian Institute of Science, Hebbal, Bangalore, and to the east of the Government Porcelain Factory.

The last date for receiving the quotations is 30th June 1936 and the quotations will not be considered unless they are accompanied by the calculations of the various sections adopted in the design of every important item of construction.

The decision of the quotations is subject to the final orders of the Chief Engineer of Mysore and will be communicated to the firm within two months after the receipt of the quotations.

The work has to be started within ten days thereafter after depositing an earnest money and executing a contract bond.

Notification dated 3rd—4th June 1936.

Notice is hereby given that sealed tenders will be received at the Office of the Executive Engineer, Water Supply Division, up to Monday the 29th June 1936 at 3 P.M., for removing 15″ old C. I. Pipe from Tharabanahalli along the 15″ Raising Main, cleaning and painting. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of 15th August 1936.

2. The plans, detailed estimate and conditions may be seen at the Executive Engineer's Office at Water Supply Division, between the hours of 11 A.M. and 5 P.M.

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed :—

4. Each tender must be accompanied by a deposit of Rs. 350 in cash or Government Promissory Notes, as earnest money, and be superscribed " Tender for removing, cleaning and painting 15″ old C. I. Pipe from Tharabanahalli along the 15″ Raising Main of C. & M. Station," in default of which tenders will be rejected.

5. The final acceptance of any tender will rest with the Executive Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond ; in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the Notice Board in the Executive Engineer's Office in due course. No enquiry regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

9. Rates once tendered will not be enhanced on any account.

10. Rates for non-tendered and non-estimated items shall be as per schedule rates of the Department or those fixed by the Executive Engineer after working out data with not more than 10 per cent for Contractor's profit.

11. In all matters not specifically provided for and in all matters of dispute about rates, quantities, measurements, quality of works, etc., and in all disputes of any kind, the decision of the Executive Engineer will be final and legally binding.

12. Quotations must be given in words as well as in figures and they must be in specific term of unit shown against each item of work. Any quotation quoted at so much percentage less or more than estimated rate will not be accepted.

Abstract.

V. GANESHA IYER,
Executive Engineer.

OFFICE OF THE ASSISTANT ENGINEER, HEADQUARTER RANGE, MYSORE.

Notification dated 6th June 1936.

1. Sealed tenders will be received at the Office of the Assistant Engineer, Headquarter Range, Mysore, up to 12 noon on 24th June 1936, for converting old ward into an European Special Ward in Krishnarajendra Hospital, Mysore.

2. Tenders in the prescribed form obtainable from the Office of the Assistant Engineer, Headquarter Range, Mysore, on payment of Re. 1 for each form should be addressed to the Assistant Engineer, Headquarter Range, and should be superscribed as "Tender for converting old ward into an European Special Ward in Krishnarajendra Hospital, Mysore." The name of the tenderer should also be superscribed on the sealed cover.

3. Each tender must be accompanied by a deposit of Rs. 250 (two hundred and fifty) in cash or Government Promissory Notes or Mysore Government Bonds at face value or market value, whichever is less, as earnest money. The earnest money of the successful tenderer will be retained as security deposit for due fulfilment of the contract. (Cash amount will not carry any interest).

4. The tenders will be opened in the presence of such tenderers who wish to be present on 24th June 1936 at 3 P.M. The final acceptance of the tender will rest with the Superintending Engineer who does not bind himself to accept the lowest or any tender, or to assign any reasons whatever, for the rejection of any.

5. The name of the successful tenderer will be posted on the Notice Board in the Assistant Engineer's Office, in due course. Within eight days of the acceptance of the tender, the successful tenderer will be required to execute the agreement in the departmental schedule contract form for the due fulfilment of the contract.

6. Failure to comply with the condition 5 above or to agree to carry out the work in accordance with the specifications and agreements in force will entail forfeiture of the earnest money.

7. Copies of contract documents, estimates and drawings may be seen at any time at the Office of the Assistant Engineer, Headquarter Range, Mysore, on all working days between 11 A.M. and 5 P.M.

8. Specific rate should be given for each item in the schedule and the rate should be in rupees, annas and in multiples of three pies and expressed in words and figures. Tenderers offering a percentage reduction on the estimate amount will be rejected.

9. Any rates or lumpsum amounts for the items not called for, if tendered by the tenderer, will not be taken notice of. The rates tendered should include all such lumpsum items.
